BACKGROUND:

When benefits are indexed each January according to the legislated formula, most benefit values will include cents. The LISA system does not respond to cents, so clarification is needed for how these benefits should be entered.

INTENT:

To advise staff of the policy for rounding benefits to a dollar value, to ensure that entries are as close as possible to the actual value without penalizing clients when the benefit contains cents.

POLICY:

The following AISH program policy have been updated:
