BACKGROUND:

The DRES policy has been updated to align with the DRES Regulations for the DRES Review process. The process has changed by the addition of the Executive Director, Program Policy branch review. The Executive Director is assisted in his/her review by the DRES Review Committee. The decision of the Executive Director, Program Policy branch is final.

The online glossary has been removed from the website and therefore a definition of employment was inserted into the DRES policy to provide clarity and consistent application of the policy. The definition of employment in policy is aligned with the definition of employment in the DRES Regulations.
