MESSAGE:

Advanced Education is now accepting applications for Integrated Foundational Pathways (IFP) training programs that help Albertans gain competencies to pursue further education, training and/or employment.

The [Integrated Foundational Pathways](#) policy outlines the program components. Approved training programs will provide adult Albertans with interactive and supportive learning environments that provide a unique blend of essential skills, academics, and applied skills development to allow them to build on their foundational competencies.

The IFP application and information on the application process is available on the Alberta.ca website at [IFP Program Application](#).
