1 Introduction

Purpose
This document provides:

1. An introduction and background on the PDD Outcome Plan

2. The process flow for completing a PDD Outcome Plan

3. PDD Outcome Plan form mapped to actions from the process flow

4. Step-by-step instructions on how to perform each of the actions in the process flow

Details on the functionality provided to create, view, print and close a PDD Outcome Plan in Mobius are described in the DP14.01 PDD Outcome Plan Design Specification. Business guidelines for performing outcome planning will be documented in Module 2 of the PDD staff training.

Audience
The intended audience for this document includes PDD Subject Matter Experts, and the technical team and was not originally designed with front line staff in mind. Mobius users (staff using Mobius) should disregard the Source information as this is more relevant to the technical team’s use.

Background
The PDD Outcome Plan provides a summary of an individual’s identified outcomes, support needs and services. It is developed by the PDD case worker with input from the individual and...
stakeholders involved in his/her life. The case worker reviews, updates or creates a new PDD Outcome Plan as required. A copy of the plan is provided to the individual / guardian and the Service Provider. The Service Provider uses the PDD Outcome plan as one of the inputs for the development of the Individual Support Plan.

The PDD Outcome Plan was implemented in April 2017 and due to a CURAM Mobius V.7 upgrade this document was updated to reflect the related changes.

The following diagram shows where the PDD Outcome Plan falls within the PDD business process.
2 Process Flow

The actions to complete a PDD Outcome Plan in Mobius are illustrated in the process flow below.

- **E1.2.1** Start the PDD Outcome Plan in Mobius
- **E1.2.3** Contributors Exist?
  - Yes: Add Contributors
  - No: E1.2.4 Add Identified Outcomes (Objectives)
- **E1.2.5** Natural Supports or Generic Services Exist?
  - Yes: Add Natural Supports and Generic Services Actions
  - No: E1.2.8 Add Comments (Notes) to "Complex Service Needs" Services
- **E1.2.7** Client has Complex Needs?
  - Yes: E1.2.9 Add "Complex Service Needs" Mandatory Services and the individuals responsible for follow-up
  - No: E1.2.10 Add Comments (Notes) to "Complex Service Needs" Services
- **E1.2.11** Add PDD Funded Services
- **E1.2.12** Add "Monitoring Plan" Action and Comments (Reason)
- **E1.2.13** Add "Obtain an Individual Support Plan" Action
- **E1.2.14** Complete "Obtain an Individual Support Plan" Action
- **E1.2.15** Update Dates for "Complex Service Needs" Services

**Within Mobius:**
- A. Enter the PDD Individual ID
- B. Create a CCISD Case (if one does not already exist)
- C. Create a PDD Outcome Plan
- D. Complete a PDD Outcome Plan Assessment

**The following 3 services are mandatory for individuals with complex needs:**
- Risk Analysis / Risk Management
- Behavioral Supports
- Specialized Staff Training Requirements

**Capture the date that the Individual Support Plan (ISP) is received or provide a reason why it has not been received.**

**Capture the date "Completed by" for:**
- Risk Analysis / Risk Management
- Specialized Staff Training Requirements

**Capture the date "Implemented by" for:**
- Behavioral Supports
Each action within the process flow has been mapped to a section of the PDD Outcome Plan form.
4 Step-by-Step Instructions

Step-by-step instructions are provided in this section for each of the process flow actions.

As of the Mobius Release 3.4 which occurred on Dec. 11, 2017, the tab names and order were changed to accommodate the CCISD Common Outcome Plan. Tabs not applicable to the PDD Outcome Plan have been greyed out.

E1.2.1 Start the PDD Outcome Plan in Mobius

A. Enter the PDD Individual ID
(PDD Outcome Plan PDF form section A, Individual Information.)

The PDD Individual ID (i.e. the CSS ID) must be recorded in Mobius before the PDD Outcome Plan can be printed or closed.

Notes:
- The PDD Individual ID is the only Alternative ID in Mobius printed on the PDD Outcome Plan.
- A PDD Individual ID which is cancelled or has a “To” date in the past will not be printed on the PDD Outcome Plan.
- The PDD Individual ID is not considered a public identifier; therefore workers are not able to use this in the search criteria. (The PDD Individual ID is stored in the Enterprise Data Base from CSS, but not from Mobius.)
- An incorrect PDD ID can be entered. If this occurs there is a report in the Outcome Plan Infomart Reports to look up the name of individual who the PDD ID has been incorrectly associated with. (http://edm-goa-sql-353/Reports/Pages/Report.aspx?ItemPath=%2fPublic%2fPDD%2fOutcome+Plan+Reports%2fLookupPDDID)

Start
- User (Staff using Mobius) is on the Person home page.
Action Steps
SOURCE: DP14.01.UC.01 Step 1: Internal User enters an Alternative ID

a) Navigate to the **Person Information** tab.
b) Select the **Alternative IDs** option in the left navigation pane under the **Person Information** tab.

System presents the Alternative Identifier(s) page.

c) Select the **New** button.

System presents the Create Alternative Identifier modal dialog.

d) Populate the screen.

<table>
<thead>
<tr>
<th>Field</th>
<th>Mandatory / Optional</th>
<th>How to Populate the screen</th>
<th>Printed on OP*</th>
</tr>
</thead>
<tbody>
<tr>
<td>Alternative Identifier</td>
<td>M</td>
<td>Enter the client’s PDD Individual ID.</td>
<td>Yes</td>
</tr>
<tr>
<td>Type</td>
<td>M</td>
<td>Select the <strong>PDD Individual ID</strong> dropdown value.</td>
<td>No</td>
</tr>
<tr>
<td>From</td>
<td>M</td>
<td>PDD is not using this field, do not change the value.</td>
<td>No</td>
</tr>
<tr>
<td>To</td>
<td>O</td>
<td>PDD is not using this field - leave blank.</td>
<td>No</td>
</tr>
<tr>
<td>Comments</td>
<td>O</td>
<td>PDD is not using this field - leave blank.</td>
<td>No</td>
</tr>
</tbody>
</table>

*OP – stands for the PDD Outcome Plan
e) Select the **Save** button.  
System displays the Alternative Identifier in the Alternative Identifier(s) page.

---

B. Create a CCISD Case

The CCISD case is the Mobius container (similar to the green folder used in the PDD paper file) for storing all the client’s Outcome Plans.

**If a CCISD Case already exists, use that one. Do not create a second CCISD Case!**

**Start**
- User is on the person home page and select the Cases tab.

**Action Steps**

*SOURCE: DP14.01.UC.01 Step 2: Internal User Creates a CCSID Case for the Individual*

a) Select **New Case** from the person home page tab **Actions** menu.
System presents the New Case modal dialog.

b) Populate the screen.

<table>
<thead>
<tr>
<th>Field</th>
<th>Mandatory / Optional</th>
<th>How to Populate the screen</th>
<th>Printed on OP</th>
</tr>
</thead>
<tbody>
<tr>
<td>Type</td>
<td>M</td>
<td>Select the <strong>CCISD Case</strong> dropdown value.</td>
<td>No</td>
</tr>
<tr>
<td>Priority</td>
<td>M</td>
<td>PDD is not using this field-- do not change the value. Default: high</td>
<td>No</td>
</tr>
</tbody>
</table>

c) Select the **Save** button.

System presents the CCISD Case home page in a new tab.
C. Create a PDD Outcome Plan

The PDD Outcome Plan is the Mobius container for storing information for a single PDD Outcome Plan. If an “Open” PDD Outcome Plan already exists, the system will not allow the creation of a new PDD Outcome Plan.

Start
- User is on the person’s CCISD Case home page.

Action Steps
SOURCE: DP14.01.UC.01 Step 3: Internal User Creates a PDD Outcome Plan for the Individual
a) Select the Outcome Plans tab from the person’s CCISD Case home page.
   System presents the Outcome Plans page.

b) Select the New button.
   System presents the New Outcome Plan modal dialog.
c) Populate the screen.

<table>
<thead>
<tr>
<th>Field</th>
<th>Mandatory / Optional</th>
<th>How to Populate the screen</th>
<th>Printed on OP</th>
</tr>
</thead>
<tbody>
<tr>
<td>Type</td>
<td>M</td>
<td>Select the <strong>PDD Outcome Plan</strong> dropdown value</td>
<td>No</td>
</tr>
<tr>
<td>Name</td>
<td>M</td>
<td>Enter a name for the PDD Outcome Plan. The naming convention is:</td>
<td>No</td>
</tr>
<tr>
<td></td>
<td></td>
<td>  <strong>&lt;Firstname Lastname&gt; PDD Outcome Plan</strong></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>Example: Celia Buttershaw PDD Outcome Plan.</td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>Use this naming convention for all PDD Outcome Plans for the same individual. When</td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>multiple PDD Outcome Plans exist for an individual, the most recent may be identified</td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>from the Start Date.</td>
<td></td>
</tr>
<tr>
<td>Start Date</td>
<td>M</td>
<td>Enter the date the PDD Outcome Plan is completed with the individual / representative.</td>
<td>Yes</td>
</tr>
<tr>
<td></td>
<td></td>
<td>This date is displayed on the last page of the PDD Outcome Plan PDF. Default: today’s date</td>
<td></td>
</tr>
<tr>
<td>Expected End Date</td>
<td>O</td>
<td>PDD is not using this field - leave blank.</td>
<td>No</td>
</tr>
<tr>
<td>Select Clients</td>
<td>M</td>
<td>Check the box next to the client’s name. All members added to the case will be listed.</td>
<td>Yes</td>
</tr>
<tr>
<td></td>
<td></td>
<td>The PDD business practice is to have only one member for each CCISD Case.</td>
<td></td>
</tr>
</tbody>
</table>

d) Select **Save**.

System presents the outcome plan home page in a new application tab. As of Dec. 11, 2017, when Release 3.4 occurred the tabs were changed to accommodate the CCISD Common Outcome Plan. Tabs not applicable to the PDD Outcome Plan have been greyed out.

D. Complete a PDD Outcome Plan Assessment

The PDD Outcome Plan Assessment is completed in order to set up the components (Factors and Ratings) of the PDD Outcome Plan within Mobius. Please go to 8. Reassessment, if an Assessment needs to be modified.
Ratings (for each Factor) are used by Mobius to:
- identify recommended actions and
- run validations prior to printing and closing a PDD Outcome Plan.

<table>
<thead>
<tr>

<Quality of Life Domains>

- Is Emotional Well-Being a focus for the Individual?
- Is Interpersonal Relations a focus for the Individual?
- Is Material Well-Being a focus for the Individual?
- Is Personal Development a focus for the Individual?
- Is Physical Well-Being a focus for the Individual?
- Is Rights a focus for the Individual?
- Is Self Determination a focus for the Individual?
- Is Social Inclusion a focus for the Individual?

<Any one of the 8 QoLD factors
Emotional Well-Being*
Interpersonal Relations*
Material Well-Being*
Personal Development*
Physical Well-Being*
Rights*
Self Determination*
Social Inclusion*>

Focus/Not a Focus

• What is the monitoring requirement for the Individual?

More often than every 3 months
Every 3 months
Every 6 months
Every 12 months
(Face-to-face)
Every 12 months
(Phone or email)

Not Applicable

Start
• User is on the person’s PDD Outcome Plan home page

Action Steps
SOURCE: DP14.01.UC.02 Step 10: Internal User runs a PDD Outcome Plan Assessment

a) Select the Assessments tab.
   System presents the Assessments page.
b) Select the **New** button.

System presents the New Assessment modal dialog with the Name and Description of the available Assessments.

![New Assessment Modal Dialog](image)

- **Name**: PDD Outcome Plan Assessment
- **Description**: The PDD Outcome Plan Assessment identifies factors to assist the individual, their guardian, supporter, co-decision maker, and PDD program staff in planning for the achievement of desired outcome(s) and to provide key information to the individual, their families, PDD program staff, and service providers.

![PDD Outcome Plan Assessment](image)

c) Select the **PDD Outcome Plan Assessment** and select the **Next** button.

d) Complete the assessment questionnaire.
e) Select the Finish button.

System determines the Factors, Categories, and Classifications based on the responses.
System presents the New Assessment modal dialog with assessment results.
f) Do not populate any fields

<table>
<thead>
<tr>
<th>Field</th>
<th>Mandatory / Optional</th>
<th>How to Populate the screen</th>
<th>Printed on OP</th>
</tr>
</thead>
<tbody>
<tr>
<td>Comments</td>
<td>O</td>
<td>PDD is not using this field – leave blank.</td>
<td>No</td>
</tr>
</tbody>
</table>

g) Select the **Complete** button to finish the Assessment.

System displays the completed assessment. System adds Factors to the PDD Outcome Plan with Ratings specified by assessment responses. In order to see the Factors, click on the “Arrow” to expand it.

---

**E1.2.4 Add Contributors**

(PDD Outcome Plan form section B. *Is someone supporting the individual with their planning?*)

Contributors are the individuals who participate in the development of the client’s PDD Outcome Plan and stay involved beyond Outcome planning. Contributors participate in meetings with the Service Provider to discuss services and/or the development of the Individual Support Plan. Individuals not involved beyond the development of the PDD Outcome Plan are not captured as contributors.

There are two types of contributors:

1. **Registered** – Persons registered in Mobius with existing Relationships to the individual who have an “Active” status and not end-dated (“To” date empty) and a Relationship type of:
   - Supporter
   - Co-Decision Maker
   - Private Guardian
   - Private Trustee
   - Aunt, Child, Cousin, Dependent Child, Foster Child, Foster Parent, Grandchild, Grandparent, Nephew, Niece, Parent (Biological/adoptive), Parent of Dependent Child, Sibling, Spouse/Partner, Step Child, Step Parent, Uncle → displayed as Family
   - No Relation, Other Relation → displayed as Friend

   Excludes the following Relationship Types:
   - Assisted Person, Person represented by a Private Guardian, Person represented by a Private Trustee, Person represented by a Public Guardian, Person represented by a Public Trustee, Public Guardian, Public Trustee, Supported Person
   - Prospect Persons in an existing Relationships with the (Outcome Plan) Person are not presented for selection as a Contributor on the Outcome Plan, but an
information message is displayed to indicate the existence of Relationship(s) with Prospect Person(s)

2. **Unregistered** – Persons not registered in Mobius
   - A Public Guardian and/or Public Trustee involved beyond the outcome planning conversation are entered as unregistered contributors, so that the actual name of the OPGT is captured.
   - Family and Friends not already registered in Mobius are captured as Unregistered Contributors.
   - Always check to see if a person is registered in Mobius before entering them as an Unregistered Contributor.

**Notes:**
- A Contributor that is a private legal entity must be registered in Mobius. That is: Supporter, Co-Decision Maker, Private Guardian, Private Trustee, Public Guardian and Public Trustee.
- Once a Registered Contributor has been added to the PDD Outcome Plan, they will remain – even if the Relationship record (that existed when the Registered Contributor was added to the PDD Outcome Plan) has changed (to another type or Person) or has been deleted.
- Demographic data of Registered Contributors automatically updates when a change is made to a Contributor's Person record.
- Registered Persons in more than one existing Relationship will be presented more than once for selection
- Registered Person that has previously been added as an Active Contributor will not appear in the list for selection again.

**Start**
- User is on the person’s outcome plan home page

**Action Steps**
**SOURCE:** DP14.01.UC.02 Step 12: Internal User adds one or more Contributors to the PDD Outcome Plan

a) **Select the Contributors tab.**
   System presents the Contributors page.
Registered Contributors

b) Select the New (Registered Contributor) button.
   System presents the New Registered Contributor modal dialog.
   • The following demographic information is displayed
     o Type – there’s 3 types of Contributor (Family, Friend or Organization)
     o First Name and Last Name – Registered (Legal) Name.
     o Address – Mailing address; if multiple, the Active record with latest
       From Date and no (or future) To Date is displayed. Residential address
       is never displayed.
     o Phone Number – Home phone number; if multiple; the Active record
       with latest From Date and no (or future) To Date is displayed. The
       Work, Cell. TTY, FAX, Other, Messages numbers are never displayed.
     o Email Address – Personal email address; if multiple, the Active record
       with latest From Date and no (or future) To Date. The business email
       address is never displayed.
   • Registered Persons in more than one existing Relationship will be presented
     more than once for selection, in the sort order specified above
   • Registered Person that has previously been added as an Active Contributor will
     not appear in the list for selection again.

Note: The list of contributors will appear if a relationship exists in the system between the client and
another individual. If no names appear on the screen above, refer to the section SETTING UP A
RELATIONSHIP in this document.

c) Select one or more Contributors and select the Save button.
   Note: At least one Contributor must be selected.
   System displays the new Contributor in the Contributors list.
Unregistered Contributors

a) Select the **New (Unregistered Contributor)** button. System presents the New Unregistered Contributor modal dialog.

![New Unregistered Contributor Modal Dialog]

Note: Name, and Type are mandatory fields but are not identified with an asterisk.

b) Populate the screen.

<table>

Mandatory / Optional | If the Contributor is a Public Trustee or Public Guardian representative enter “(OPGT)” after their name. Example: Jan Frost (OPGT). | |
Address Option | M | Select an address description from the dropdown list: no fixed address, out of country, provided, unknown. | Yes
Address Line 1 | O | Enter the Contributor’s address | Yes
Address Line 2 | O | Enter the Contributor’s address | Yes
City | O | Enter the Contributor’s city | Yes
Province | O | Enter the Contributor’s province | Yes
Postal Code | O | Enter the Contributor’s postal code | Yes
Phone Number | O | Enter the contact phone number of the Contributor | Yes
  1 – Country Code (Optional)
  2 – Area Code (Mandatory only if phone number is populated)
  3 – Phone number (Optional)
Phone Number | | | |
Extension | O | Enter the Contributor’s phone extension | Yes
Email Address | O | Enter the email address of the Contributor | Yes
c) Select the **Save** button. System displays the new Contributor in the Contributors list.
**E1.2.5 Add Identified Outcomes (Objectives)**
(PDD Outcome Plan form section A. Individual Information)

Capture the client’s desired outcomes.

**Start**
- User is on the person’s outcome plan home page

**Action Steps**
SOURCE: DP14.01.UC.02 Step 13: Internal User adds one or more Objectives to the PDD Outcome Plan

a) Select the **Objectives** tab. System presents the Objectives page.

b) Select the **New** button. System presents the Details page in the New Objective modal dialog.
c) Populate the screen.

<table>
<thead>
<tr>
<th>Field</th>
<th>Mandatory / Optional</th>
<th>How to Populate the screen</th>
<th>Printed on OP</th>
</tr>
</thead>
</table>
| Select Objective / New Objective | M                    | Select one of the predefined identified outcomes from the dropdown list:  
- Enjoy good mental and emotional health and well-being and am happy with my life.  
- Enjoy good physical health that lets me do the things I want.  
- Experience opportunities to tell people what I think and want, they listen and work with me to achieve them.  
- Experience the right to do the same things as all adults.  
- Have a stable income that gives me enough money to meet my basic needs and buy and do the things I want.  
- Have on-going opportunities to learn new skills and abilities that increase my independence.  
- Have opportunities to participate in and contribute to community life, events and activities that are of interest to me.  
- Have relationships with others that are important to me such as family, friends and peers.  
- or – Enter a New Objective/(identified outcome)  
An objective can be either selected from the drop down or entered as a New Objective, but not both. Each Objective must be entered separately as a New. | Yes            |
| Expected End Date             | O                    | PDD is not using this date field - leave blank.                                             | No            |
| Client                        | M                    | Check the box next to the client’s name.                                                   | Yes           |
| Reason                        | O                    | Enter information about the outcome such as a reason why the outcome may not be supported.  
This field is optional and will not be printed on the PDD Outcome Plan.  
i.e. AB Mental Health is addressing this outcome, PDD does not support enclave participation, etc. | No            |

d) Select the **Next** button.  
System presents the Factors page in the New Objective modal dialog. All outcome plan factors and their ratings are displayed.
e) Populate the screen.

<table>
<thead>
<tr>
<th>Field</th>
<th>Mandatory / Optional</th>
<th>How to Populate the screen</th>
<th>Printed on OP</th>
</tr>
</thead>
</table>
| Factors     | O                    | Select the Quality of Life Domains (factors) of Focus and relevant to the identified outcome (objective).  
- The Quality of Life Domains (factors) that are printed on the PDD Outcome Plan are those selected as a “Focus” during the PDD Outcome Plan assessment. Factors rated as “Not a Focus” will not be printed even if they are linked to an outcome (objective).  
- For an outcome (objective) to be printed in line with the PDD Funded Services section of the PDD Outcome Plan it must have the same factor(s) (Quality of Life Domain) as the PDD Funded Service. | No           |

f) Select the **Finish** button. System displays the new objective with an outcome of “pending” in the Objectives list.
E1.2.7 Add Natural Supports and Generic Services Actions
(PDD Outcome Plan form section C. Natural Supports and Generic Services)

Capture the natural supports and generic services that are already in place.

Natural Supports are those supports available through family members, friends, co-workers, neighbours and acquaintances by providing important friendship and community connections natural to everyday life.

Generic Services may include grocery and housekeeping services, local gym and recreational facilities, and public transportation options.

Start
• User is on the person’s outcome plan home page.

Action Steps
SOURCE: DP14.01.UC.02 Step 15: Internal User adds one or more user-defined Actions the PDD Outcome Plan

a) Select the Activities tab.

b) Select the New Action from the Action drop down list. Enter the New Action then click Next. (This will display in the Description box of the PDF.)
c) System presents the **Details** page in the New Action modal dialog.

![New Action Details modal dialog]

- **Client**: Enter the client’s name.
- **Sensitivity**: Mandatory field. Restricts access to the data - do not change the value. Default: 1.
- **Estimated Cost**: Optional field. PDD is not using this field - leave blank. Default: $0.00.
- **Reason**: Optional field. Enter the name of the person or organization providing the service. Example: Health for You, AAA Cleaning. (This displays in the Person providing Supports/Services box on the PDF.)

k) Select the Finish button.
   System displays the action in the Activities and Workspace tab area.

![Image of outcome plan page]

_E1.2.8 Add “Complex Service Needs” Mandatory Services_
(PDD Outcome Plan form section D. Does the Individual have Complex Service Needs?)

Capture the following services for clients identified as having complex needs:
- Risk Analysis / Risk Management
- Behavioral Supports
- Specialized Staff Training Requirements

Start
- User is on the person’s outcome plan home page

Action Steps
SOURCE: DP14.01.UC.02 Step 16: Internal User adds one or more Services the PDD Outcome Plan

a) Select the Workspace tab.
   System presents the activities panel with a list of Actions for selecting.
b) Drag a recommended Action for Complex Service Needs from the Activities panel and drop it onto the Workspace Area. (All three recommended services are mandatory if you have selected YES to Complex Service Needs.) System presents the Details page in the New Service modal dialog.
c) Open and populate the Details screen.

<table>
<thead>
<tr>
<th>Field</th>
<th>Mandatory/Optional</th>

| **Check Client Availability** | O                  | PDD is not using this field.                                                               | No           |
h) Select the **Next** button.
   System displays the Factors page in the New Service modal dialog. **All outcome plan factors and their ratings are displayed; the factor for the recommended service “Complex Service Needs” is preselected**

![New Service Modal Dialog]

i) Select the **Finish** button.
   System displays the new service in the Activities page and in the Workspace area.

![Activities Page]

---

v.1.0 Apr2018
E1.2.10 Add Comments (Notes) to “Complex Service Needs” Services

Capture information about the service. This is the only place in the Outcome Plan where a comment/note is displayed in the PDF. (All of the other areas displayed in the PDF are via a Reason box, which contains <<Default text specific to each area>>. If you do not delete the <<Default text specific to each area>>, it will display on the PDF.)

Start
- User is on the person’s outcome plan home page

Action Steps
SOURCE: DP14.01.UC.02 Step 20: Internal User adds a note to a Service

a) Select the Activities tab.
   System presents the Activities page.

b) Select the Services tab from the Activities page.
   System presents the Services list.

c) Select Add Comment from the list Action menu next to a service.

System presents the New Note modal dialog.
d) Populate the screen

<table>
<thead>
<tr>
<th>Field</th>
<th>Mandator / Optional</th>
<th>How to Populate the screen</th>
<th>Printed on OP</th>
</tr>
</thead>
<tbody>
<tr>
<td>New Note</td>
<td>M</td>
<td>Enter information about the required service. Example: - For “Risk Analysis/Risk Management” identify if a risk management plan in place from a previous service provider. - For “Specialized Staff Training” list the specific staff training required such as suicide prevention or how to use an EpiPen.</td>
<td>Y</td>
</tr>
</tbody>
</table>

e) Select the Save button.
   System displays the Services list.

E1.2.11 Add PDD Funded Services
(PDD Outcome Plan form section E. Description of PDD Funded Services)

Capture the services PDD will provide or support, and determine funding options. PDD funded services include:

- Behavioral consultative services
- Community access
- Employment preparation
- Employment placement
- In home respite
- Other specialized community supports
- Out of home respite
- Overnight staffed residence
- Professional consultative services
- Support home
- Supported independent living
- Transportation
Start
• User is on the person’s outcome plan home page

Action Steps
SOURCE: DP14.01.UC.02 Step 16: Internal User adds one or more Services the PDD Outcome Plan

a) Select the Workspace tab.
   System presents the Workspace area; the Workspace area contains the Activities panel with a list of recommended Services.

b) Drag a Service from the Activities panel and drop it onto the Workspace area. System presents the Details page in the New Service modal dialog.
c) Populate the screen.

<td>Select all additional Quality of Life Domain that are associated with this service.</td>
<td>Yes</td>
</tr>
</tbody>
</table>

Note:
- Each (QoLD) factor associated with a PDD Funded service should have a rating of “Focus”.
- Outcomes/objectives are linked to the PDD Funded Service through the QoLD factors. If outcomes and funded services do not share the exact same factors the Outcome/objective, they will not be printed under the PDD Funded Service section of the PDD Outcome Plan form.
h) Select the **Finish** button.
   System displays the service in the Workspace area.

---

![Diagram of a task on a PDD Outcome Plan]

**E1.2.12 Add “Monitoring Plan” Action and Comments (Reason box)**
(PDD Outcome Plan form section F. Monitoring Plan and section G. Summary of Individual’s Information.)

The Monitoring Plan Action displayed in the Workspace tab, Activities panel matches the frequency identified in the Assessment. If the user wants to change the frequency identified in the Activities panel you must open a new Outcome Plan. (Please see 8. Reassessment for more information.)

**Start**
- User is on the person’s outcome plan home page

**Action Steps**
**SOURCE:** DP14.01.UC.02 Step 14: Internal User adds one or more pre-defined Actions to the PDD Outcome Plan

a) Select the **Workspace** tab.
   System presents the workspace area; the workspace area contains the activities panel with a list of recommended actions.
b) Drag the **Monitoring Plan** recommended action from the activities panel and drop it onto the workspace area.

System presents the Details page in the New Action modal dialog. The Estimated Cost field is on the screen only when the user navigates to the screen from the New Action button.

c) Populate the screen

<table>
<thead>

</tr>
</tbody>
</table>

f) Select the **Next** button.

System displays the Factors page in the New Action modal dialog. All outcome plan factors and their ratings are displayed; the factor for the recommended Monitoring Plan action is preselected.
g) Select the **Next** button.
   System displays the Owner page in the New Action modal dialog.

h) Select the **Finish** button.
   System displays the action in the Workspace area.
E1.2.13 Add “Obtain an Individual Support Plan” Action
(PDD Outcome Plan form section H. Individual Support Plan (Required within 90 days))

The Obtain Individual Support Plan action has now been enhanced to allow users to update Receipt of an ISP annually, while leaving an Outcome Plan in place as long as required. This is only done if there are NO changes to Complex Service Needs, QoL Domains, Funded Service or Monitoring Plan.

Create an action to capture the date the Individual Support Plan is received.

Start
• User is on the person’s outcome plan home page

Action Steps
SOURCE: DP14.01.UC.02 Step 14: Internal User adds one or more pre-defined Actions to the PDD Outcome Plan

a) Select the Workspace tab.
   System presents the workspace area; the workspace area contains the Activities panel with a list of recommended Actions.
b) Drag the **Obtain Individual Support Plan action** from the Activities panel **then** drop it onto the workspace area.

System presents the Details page in the New Action modal dialog. The Frequency and Duration fields are displayed on the screen only when the user navigates to the screen from the New Action button.

c) Populate the screen

e) Select the **Save** button.

   System displays the action with the end date and outcome in the Actions list.
E1.2.15 Update Dates for “Complex Service Needs” Services

Capture the date the service was completed or implemented

Enter the date the service is **completed** for:
- Risk Analysis / Risk Management
- Specialized Staff Training Requirements

Enter the date the service is **implemented** for:
- Behavioral Supports

**Start**
- User is on the person’s outcome plan home page

**Action Steps**

SOURCE: DP14.01.UC.02 Step 18: Internal User edits a Service

a) Select the **Activities** tab.

System presents the Activities page.

```
<table>
<thead>
<tr>
<th>Activities</th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Recommendations</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Agreements</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Costs</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Participation</td>
<td></td>
<td></td>
</tr>
<tr>

<td>O</td>
<td>Enter the Person Responsible for follow-up</td>
<td>Yes</td>
</tr>
</tbody>
</table>

d) Update the information presented as required.

e) Select the **Save** button. System displays the Services list.
5  Print - a PDD Outcome Plan

The PDD Individual ID must be entered before a PDD Outcome Plan can be printed.

The Case Worker (Mobius Owner) who created the PDD Outcome Plan, along with their contact information (phone and email), is printed at the end of the PDD Outcome Plan document. To have this contact information changed contact Mobius Supports.

Tips:
Only Quality of Life Domains rated of Focus will print

Start
• User is on the person’s outcome plan home page

Action Steps
SOURCE: DP14.01.UC.04: Internal User Prints a PDD Outcome Plan

a) Select View Printable Document from the outcome plan home page tab actions menu.
   System presents the View Printable Document modal dialog, validates PDD Outcome Plan components, and displays applicable errors and warnings.
b) **Select the View button**

System saves or opens a PDF of the PDD Outcome Plan depending on the browser.
6 Close - a PDD Outcome Plan

The only time a PDD Outcome Plan is closed is when a new plan is required. A new plan is required when an individual’s circumstances changes. Users should never make changes to closed PDD Outcome Plans even though Mobius allows this. The system restricts user from making changes to some parts of the Outcome Plan (e.g. users are not able to add or update Activities or create a New Goal to a closed Outcome Plan) but technically, users can still make changes such as change the end date.

The PDD Individual ID must be entered before a PDD Outcome Plan can be closed.

Start
• User is on the outcome plan home page

Action Steps
SOURCE: DP14.01.UC.05: Internal User Closes a PDD Outcome Plan

a) Select Close from the outcome plan home page tab actions menu. System presents the Close Outcome Plan modal dialog, validates PDD Outcome Plan components, and displays applicable errors and warnings.
b) Populate the screen

<table>
<thead>
<tr>
<th>Field</th>
<th>Mandatory / Optional</th>
<th>How to Populate the screen</th>
<th>Printed on OP</th>
</tr>
</thead>
<tbody>
<tr>
<td>Closure Reason</td>
<td>M</td>
<td>Select the appropriate reason from the dropdown list:</td>
<td>No</td>
</tr>
<tr>
<td></td>
<td></td>
<td>- Opened in Error</td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>- Other</td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td>- Outcome Achieved</td>
<td></td>
</tr>
<tr>
<td>Comments</td>
<td>M</td>
<td>Enter reason for closing the Outcome Plan such as: client is no longer eligible for PDD funding, new Outcome Plan is required.</td>
<td>No</td>
</tr>
</tbody>
</table>

c) Select the Save button

System displays the Closed status in the outcome plan home page context panel.
A user can view both open and closed PDD Outcome Plans.

**Start**
- User is on the person home page of a client who has a PDD Outcome Plan.

**Action Steps**
**SOURCE:** DP14.01.UC.06: Internal User Views a PDD Outcome Plan

a) Select the **Cases** tab in the person home page.
   System presents the Cases page.

b) Select the **Case Reference** for the CCISD Case.
   System presents the CCISD Case home page in a new tab.

c) Select the **Outcome Plans** tab in the CCISD Case.
   System presents the Outcome Plans page.

d) Select the **(Case) Reference** for the PDD Outcome Plan.
   System presents the outcome plan home page.
8 Reassessment

A reassessment is completed to:
- Fix errors upon data entry when the assessment was entered.
- Capture changes which do not affect supports and services.

Completing a reassessment will update the same data as completing a new assessment. The difference is that after a reassessment has been completed the Mobius Compare functionality is available to show the differences between the Assessment to the Reassessment.

If an error has been made while doing the Assessment, or you need to update the Contributors/Natural Supports or Generic Services then you must do a re-assessment to change a checked yes to an unchecked no. If there are changes to an individual’s Complex Service Needs, QofL Domain Factors, Funded Service or Monitoring Plan, you must do a new Outcome Plan. Please do not do a Reassessment, close the present Outcome Plan and create a new Outcome Plan.

If your PDD Outcome Plan PDF displays more than one Monitoring Plan you must go in and delete the unwanted Monitoring Plan from the Activities tab. This is done by clicking and opening the unwanted Monitoring Plan and then deleting it via the ellipses.

![Monitoring Plan](image)

Start
- User is on the person’s outcome plan home page

Action Steps
SOURCE: DP14.01.UC.03 Step 14: Internal User runs a PDD Outcome Plan Reassessment, if applicable

a) Select the Assessments tab.
   System presents the Assessments page by default.
b) Select the Outcome Plan Assessment.  
System presents the assessment webpage.

c) Select Reassess from the action list.  
System presents the Assessment modal dialog.
d) Complete the assessment questionnaire.

NOTE: Exactly the same screens as New Assessment Screen, fields are not prepopulated from the previous assessment

e) Select the Next button.
System presents the New Assessment modal dialog with assessment results.
Select the **Complete** button to finish the reassessment.
System displays the completed reassessment in the Assessments list. System updates Ratings for Factors in the PDD Outcome Plan specified by reassessment responses.
9 Change Case Worker – for a PDD Outcome Plan

The Case Worker is captured as the Mobius Owner when the PDD Outcome Plan is created.

Note:
- Cases and Activities also have an Owner which is set by default to the user who created them.
- Changing the owner of a PDD Outcome Plan will not change the owner of the Case or Activity.
- Reporting will be based on the PDD Outcome Plan Owner. Owners for the Case and Activities will be ignored.

Start
- User is on the outcome plan home page

Action Steps
SOURCE: DP14.01.UC.07: Internal User Changes PDD Outcome Plan Owner

a) Select the User Roles page in the Admin tab.
   System presents the User Roles page.

b) Select the New Owner button.
   System presents the New Owner modal dialog.
d) Populate the screen.

<table>
<thead>
<tr>
<th>Field</th>
<th>Mandatory / Optional</th>
<th>How to Populate the screen</th>
</tr>
</thead>
<tbody>
<tr>
<td>New Owner</td>
<td>M</td>
<td>Select <strong>User</strong> from the dropdown list. Dropdown values: Organization Unit, Position, User, Work Queue Default = User</td>
</tr>
<tr>
<td>Search</td>
<td>M</td>
<td>Select the <strong>Search</strong> icon. System presents the User Search modal dialog</td>
</tr>
</tbody>
</table>

i. Enter search criteria **First name and Last Name** and select **Search**. System presents Search Results.

ii. Select a **User** from the Search Results. System presents the New Owner modal dialog.
e) Select **Save**.

System presents the User Roles page. The new Case Owner is displayed in the list; the previous Case Owner is end dated.
10 List of Factors, Services and Actions

Factors

- Outcome Plan Contributors
- Access to Natural Supports
- Access to Generic Services
- Complex Service Needs
- Emotional Well-Being
- Interpersonal Relations
- Material Well-Being
- Personal Development
- Physical Well-Being
- Rights
- Self Determination
- Social Inclusion

Services – in alphabetical order

- Behavioral consultative services
- Community access
- Employment preparation
- Employment placement
- In home respite
- Other specialized community supports
- Out of home respite
- Overnight staffed residence
- Professional consultative services
- Support home
- Supported independent living
- Transportation
- Risk Analysis / Risk Management
- Behavioral Supports
- Specialized Staff Training Requirements

Actions

- Monitoring Plan (12 months-Phone or email)
- Monitoring Plan (12 months-Face-to-face)
- Monitoring Plan (6 months)
- Monitoring Plan (3 months)
- Monitoring Plan (More often than every 3 months)
- Obtain an Individual Support Plan
- User defined actions (factors of Generic Services or Natural Supports)
11 Validations

**CCISD Case**

The following validations are triggered when the View Printable Document action and the Close action is selected in a PDD Outcome Plan.

<table>
<thead>
<tr>
<th>Name</th>
<th>Validation Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>PDD Individual ID</td>
<td>The PDD Individual ID must be entered on the Person record Alternative IDs page. An Active status (not canceled), with no end (to) date (or future end date) PDD Individual ID must be entered as an Alternative ID on the Person record.</td>
</tr>
<tr>
<td>Assessment</td>
<td>The PDD Outcome Plan Assessment must be completed. A PDD Outcome Plan Assessment with a Completed status must exist in the PDD Outcome Plan; all Factors must be added to the Outcome Plan.</td>
</tr>
<tr>
<td>No Contributors without Factor</td>
<td>If Outcome Plan Contributors Factor has not been assessed, no Active Contributors entered on the Outcome Plan.</td>
</tr>
<tr>
<td>Active Contributors</td>
<td>If Outcome Plan Contributors Factor has YES Rating, at least one Active Contributors must be entered on the Outcome Plan.</td>
</tr>
<tr>
<td>No Contributors</td>
<td>If Outcome Plan Contributors Factor has NO Rating, no Active Contributors should be entered on the Outcome Plan.</td>
</tr>
<tr>
<td>Focus QoLD Factor</td>
<td>At least one (of 8) QoL Domain Factors must have a Rating of Focus</td>
</tr>
<tr>
<td>Objective All QoLD Factors</td>
<td>All Quality of Life Domain Factors with a Rating of Focus must be associated to one or more Active (not Canceled) Objectives and one or more Funded Service</td>
</tr>
<tr>
<td>Objective</td>
<td>At least one Active (not Canceled) Objective (Identified Outcome) must be entered on the Outcome Plan.</td>
</tr>
<tr>
<td>Objective QoLD Factor</td>
<td>Each Active (not Canceled) Objective (Identified Outcome) entered on the Outcome Plan must be associated to at least one QoL Domain Factor with a Rating of Focus.</td>
</tr>
<tr>
<td>Monitoring Plan Action</td>
<td>Only 1 Active (not Canceled) Monitoring Plan Action must be entered on the Outcome Plan.</td>
</tr>
<tr>
<td>Monitoring Plan (more than 3 months)</td>
<td>If Monitoring Plan Rating is More often than every 3 months, then the Monitoring Plan (more often than every 3 months) Action must be entered (Active (not Canceled)) on the Outcome Plan.</td>
</tr>
<tr>
<td>Monitoring Plan (3 months)</td>
<td>If Monitoring Plan Rating is Every 3 months, then the Monitoring Plan (3 months) Action must be entered (Active (not Canceled)) on the Outcome Plan.</td>
</tr>
<tr>
<td><strong>Monitoring Plan</strong>&lt;br&gt;(6 months)</td>
<td>If Monitoring Plan Rating is Every 6 months, then the Monitoring Plan (6 months) Action must be entered (Active (not Canceled)) on the Outcome Plan.</td>
</tr>
<tr>
<td>----------------------------------</td>
<td>------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td><strong>Monitoring Plan</strong>&lt;br&gt;(12 months)</td>
<td>If Monitoring Plan Rating is Every 12 months, then the Monitoring Plan (12 months - Face-to-face) Action must be entered (Active (not Canceled)) on the Outcome Plan.</td>
</tr>
<tr>
<td><strong>Monitoring Plan</strong>&lt;br&gt;(12 months&lt;br&gt;phone/email)</td>
<td>If Monitoring Plan Rating is Every 12 months (Phone or email), then the Monitoring Plan (12 months - Phone or email) Action must be entered (Active (not Canceled)) on the Outcome Plan.</td>
</tr>
<tr>
<td><strong>Natural Supports Action</strong></td>
<td>If Access to Natural Supports Factor Rating is YES, at least one Active (not Canceled) user-defined Action associated to the Access to Natural Supports Factor must be entered on the Outcome Plan.</td>
</tr>
<tr>
<td><strong>No Natural Supports Action</strong></td>
<td>If Access to Natural Supports Factor Rating is NO, no Active (not Canceled) user-defined Action associated to the Access to Natural Supports Factor should be entered on the Outcome Plan.</td>
</tr>
<tr>
<td><strong>Generic Service Action</strong></td>
<td>If Access to Generic Services Factor has YES Rating, at least one Active (not Canceled) user-defined Action associated to the Access to Generic Services Factor must be entered on the Outcome Plan.</td>
</tr>
<tr>
<td><strong>No Generic Service Action</strong></td>
<td>Actions associated to the Access to Generic Services Factor must not be entered if the Access to Generic Services Factor Rating is No.</td>
</tr>
<tr>
<td><strong>No Required Services without Factor</strong></td>
<td>Required Services for Complex Service Needs must not be entered if the Complex Service Needs Factor has not been assessed.</td>
</tr>
<tr>
<td><strong>Required Services</strong></td>
<td>If Complex Service Needs Factor Rating is YES, all 3 Required Services for Complex Service Needs must be entered on the Outcome Plan (and not have Canceled status).</td>
</tr>
<tr>
<td><strong>Required Services End Date</strong></td>
<td>The End Dates for all 3 Required Services for Complex Service Needs must be entered.</td>
</tr>
<tr>
<td><strong>No Required Services</strong></td>
<td>Required Service(s) for Complex Service Needs has been entered for an Individual with NO Complex Service Needs.</td>
</tr>
<tr>
<td><strong>Funded Service</strong></td>
<td>At least one (of 12) (not Canceled) PDD Funded Service must be entered on the Outcome Plan.</td>
</tr>
<tr>
<td>Funded Service QoL Factor</td>
<td>Each PDD Funded Service (that does not have Canceled status) added to the Outcome Plan must be associated to at least one QoL Domain Factor with a Rating of Focus.</td>
</tr>
<tr>
<td>---------------------------</td>
<td>------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Funded Service for Not a Focus Factor</td>
<td>Any PDD Funded Service added to the Outcome Plan (that does not have Canceled status) must NOT be associated to QoL Domain Factors with a Rating of Not a Focus.</td>
</tr>
<tr>
<td>Obtain ISP Action</td>
<td>The Obtain Individual Support Plan Action must be entered (Active (not Canceled)) on the Outcome Plan.</td>
</tr>
<tr>
<td>ISP Action Complete</td>
<td>The Obtain Individual Support Plan Action must be marked as Complete.</td>
</tr>
</tbody>
</table>
12 Transition States

**CCISD Case**

New Case (Status = Open)
- Set when a user creates new Case.
- Only Prototype and PDD workers can create CCSID cases (i.e. those workers with the CommonIntake workspace). These workers cannot create Integrated Cases.
- An individual should only have one open CCISD Case.
- If a CCISD case already exists the worker should use the existing case and not create a new one. The user will have to create a new case is the existing Case is closed.

Close Case (Status = Closed)
- Set when a user closes an open Case.
- A CCISD Case is closed only when it is opened in error.

Delete – There is no delete functionality.

**PDD Outcome Plan**

New (Status = Open)
- Set when a user creates a new PDD Outcome Plan.
- An individual can only have one open PDD Outcome Plan within Mobius.

Close (Status = Closed)
- Set when a user closes an open PDD Outcome Plan.
- Users should only close a PDD Outcome Plan when it is opened in error or when new PDD Outcome Plan is required. The PDD Outcome Plan is not closed when someone is no longer receiving services through PDD or the Government of Alberta.

Delete – There is no delete functionality.
**PDD Outcome Plan Assessment**

New Assessment (Status = In Progress)
- Set when a user performs a new Assessment.
- An individual should only have one PDD Outcome Plan Assessment. It is possible that an individual may have both a PDD Outcome Plan Assessment and a Common Outcome Plan Assessment.

Complete (Status = Complete)
- Set when a worker finishes answering the questions on the PDD Outcome Plan Assessment and selects the “Complete” button from the Results page.

Close (Status = Closed)
- Set when a user closes an assessment.
- Assessments can be closed when they are “In Progress” or “Complete”
- A PDD Outcome Plan Assessment is closed only when it is opened in error.
- A PDD Outcome Plan Assessment can be used if it is “In Progress” or “Complete”.

Resume (Status = In Progress)
- Set when a user resumes an assessment.
- Workers may resume an Assessment when the status of the Assessment is “In Progress”

Reassess (Status = In Progress)
- Set when a user reassess’ an assessment.
- Users may perform a Reassessment when the status of the existing assessment is “Complete”. A reassessment cannot be performed on an assessment “In Progress”.
- A reassessment is performed when there is a change to the individual’s circumstances. Completing a reassessment will update the same data as completing a new assessment. The difference is that after a reassessment has been completed the Mobius Compare functionality is available to show the differences between the Assessment to the Reassessment.
• If an error has been made while doing the Assessment, or you need to update the Contributors/Natural Supports or Generic Services then you must do a re-assessment to change a checked yes to an unchecked no.

• If there are changes to an individual’s Complex Service Needs, QoL Domain Factors, Funded Service, or Monitoring Plan you must do a new Outcome Plan. Please do not do a Reassessment, close the present Outcome Plan and create a new Outcome Plan.

• If your PDD Outcome Plan PDF displays more than one Monitoring Plan you must go in and delete the unwanted Monitoring Plan from the Activities tab. This is done by clicking and opening the unwanted Monitoring Plan and then deleting it via the ellipses.

Delete - There is no delete functionality.

**Objective**

New Objective (Status = Pending)
• Set when a user creates a new Objective.

Complete (Status = Attained)
• Set when a user Completes an Objective with the Outcome type of “Attained”.

Complete (Status = Not Attained)
• Set when a user Completes an Objective with the Outcome type of “Not Attained”.

Complete (Status = Other)
• Set when a user Completes an Objective with the Outcome type of “Other”.

Delete (Status = Not Applicable)
• Set after the user selects “Delete” from the Action menu next to an Objective with an Outcome of “Pending” or “Other”. No other Objectives can be deleted.

**Actions**
New (Status = In Progress)
- Set when a user creates a new Action with a Start Date <= Today.

New (Status = Not Started)
- Set when a user creates a new Action with a Start Date > Today.

NOTE: A status is changed from "Not Started" to "In Progress" by an overnight batch job when the date has passed.

Complete (Status = Complete)
- Set when selects “Complete” from the Action menu from the Action home page.
- All Actions must be completed before the Outcome Plan is closed in order to be used again for the same individual.

Delete (Status = Not Applicable)
- Set after the user selects “Delete” from the Action menu next to an “In Progress” Action. The system removes the Action form the Action list. The state is “Not Applicable” because the user cannot see the Action any more. Actions that are “Completed” cannot be deleted.
- An Action is deleted only when it is created in error.

Services

New (Status = Open)
- Set when a user creates a new Service.

Delete (Status = Not Applicable)
- Set after the user selects “Delete” from the Action menu next to an “Open” Service. The system removes the Service form the Services list. The state is “Not Applicable” because the user cannot see the Service any more.
- A Service is deleted only when it is created in error.

Close - There is no close functionality for a service. There is no business need to close a Service.
13 Setting up a Relationship

Precondition:
- The two individuals are registered

Start
- User is logged into Mobius

Action Steps
1. Select Search for a Person from the Quick Links panel.
   The system displays the Search Criteria screen.
2. Enter the search criteria to find the first individual in the relationship and select Search.
   Recommended minimum data: first name / last name / date of birth
   The system displays the Search Results.
3. Select a Person from the search results.
   The system displays the Person Information page of the individual.

4. Select the Relationships Tab.
   The system displays the existing relationships.
5. Select New.
   The system display the New Relationship Modal
6. Populate the mandatory fields.

<table>
<thead>
<tr>
<th>Field</th>
