Service Description:

- This agency is interested in the physical, emotional and spiritual well being of each individual along with all those whose lives are linked significantly with them
- They promote the concept of normalization and the integration within the surrounding community and thereby promote growth toward independence
- The dignity and rights of persons with disabilities are the utmost priority to P.R.O.S.
- They try to enhance the quality of life for persons with disabilities through individual choices, rights and dignity and to increase their ability to integrate into society
- P.R.O.S. believes that a house is a home. They will provide personal support, according to need, with in the home
- Homes will not exceed three persons thus ensuring the best possible service and care

Assisted Independent Living:

- Provides support for persons with disabilities who are residing independently in their own homes
- Staff will assist with the development of budgets, shopping, making and keeping appointments and arranging transport for outings
- Provides opportunities for companionship and socialization
- Each visit will be no less than three hours

Assisted Twenty Four Hour Shared Homes:

- Provides individualized support for up to three persons with disabilities who are residing in a home and sharing living expenses
- Opportunities will be provided to ensure that these individuals participate in the running of their household

Community Awareness Support:

- Provides individuals support within the community
- P.R.O.S. will either introduce or maintain and develop knowledge of resources available in the community. This would enable the individual to make choices of what they wish to access thereby avoiding social isolation
- Each visit will be no less than three hours
