CHILD CARE STAFF CERTIFICATION

Certification is the process used by Alberta Children’s Services to review educational training and competencies to determine eligibility and issue certification towards one of the three levels of certification in accordance with the Alberta Child Care Licensing Regulation.

Early learning and child care in Alberta is a regulated occupation. Individuals who work in licensed day care, pre-school and out-of-school care programs must hold a provincial child care staff certificate issued by the Alberta Government. The training standards for certification are legislated under Part 3 of the Alberta Child Care Licensing Regulation.

Staff working in licensed child care programs have six months to be certified, but cannot be left alone to supervise children without certification.

Levels of certification

The three levels of certification are:

- Child Development Assistant
- Child Development Worker
- Child Development Supervisor

Policy on official transcripts

As part of the eligibility requirements for child development worker and child development supervisor certification, official transcripts must be sent directly from the educational institution to the Alberta Child Care Staff Certification Office.

The following are exceptions to this requirement:

1. The educational institution no longer exists.

The applicant is required to submit a notarized statutory declaration which includes the following information:

- the name, address (including town/city and country) of the educational institution and the reason why the applicant knows/believes that the institution no longer exists;
- the name of the program and the number of years studied; and
- the original transcript(s) and parchment(s) issued to the applicant by the institution with a statement indicating that they have not been altered, tampered, or changed in any way. These documents must be submitted to the Alberta Child Care Staff Certification Office without any type of lamination.

The Alberta Child Care Staff Certification Office has the right to deny certification if there is evidence to support that the transcript(s) and/or parchment(s) are not authentic.

2. The educational institution's policy only issues one set of transcripts to the student.

The applicant is required to submit a notarized statutory declaration which includes the following information:

- the name, address (including town/city and country) of the educational institution;
- written evidence from the educational institution which identifies such a policy/practice whereby it only issues one set of transcripts (e.g. website, university calendar, etc);
- the name of the program and the number of years studied; and
- original transcript(s) and parchment(s) issued to the applicant by the institution with a statement indicating that they have not been altered, tampered, or changed in any way. These documents must be submitted to the Certification Office without any type of lamination.

The Alberta Child Care Staff Certification Office has the right to deny certification if there is evidence to support that the transcript(s) and/or parchment(s) are not authentic.
APPENDIX E

Official translations of educational credentials

If your official transcripts and/or graduation certificates have been issued in a language other than English or French, they must be translated into English by a certified translator.

Procedure:

1. When the Alberta Child Care Staff Certification Office receives official transcripts issued in a language other than English or French, a “certified true photocopy” of the official transcripts is created and this photocopy is mailed to the applicant.

2. The applicant is then responsible to have these documents translated into English. The English translation must be completed by a translator who is certified by the Canadian Translators, Terminologists and Interpreters Council of Canada (CTTIC). Canadian certified translators are listed by province at [http://www.cttic.org/member.asp](http://www.cttic.org/member.asp) and certified translators in Alberta are available online at [http://www.atia.ab.ca/index.php/directory](http://www.atia.ab.ca/index.php/directory).
   - If you have difficulty finding a certified translator, you may contact an immigrant-serving organization for assistance such as Edmonton Immigration Services Association or Immigrant Services Calgary.

3. Once you have obtained a certified English translation, the original translation must be sent to the Alberta Child Care Staff Certification Office for assessment. The original translation will be returned to you.
