

Residential Addictions Treatment

The Residential Addictions Treatment benefit covers room and board costs for Alberta Works applicants, recipients or other members of their household who access residential treatment for substance abuse and/or problem gambling.

The \$40 per day benefit is provided to the treatment facility on the Albertan's behalf.

To be eligible, the treatment facility must:

- Have an Income Support client attending the residential treatment program; and
- Be operated or funded by Alberta Health Services or approved by the Minister of Human Services.

More information

Read the [Residential Addictions Treatment](#) section of the Alberta Works Policy Manual to learn more.
